Lymphedema and lipedema syndrome – “Thinking outside the box”

Dear colleagues,
Dear friends of lymphology!

We warmly invite you to the 3rd International Földi Clinic Days 2026.

This year, we are once again focusing on our proven strengths: international networking, a diverse range of topics, and a high-calibre programme with renowned speakers from Germany, Europe, and the USA.

You can expect the latest findings, innovative therapy concepts and interdisciplinary perspectives on lymphology and related fields.

Our lectures are practical, evidence-based, and lively – with direct reference to clinical challenges in diagnosis and treatment. Thanks to our experienced team of interpreters, all content remains accessible – both linguistically and professionally.

A special highlight: on Saturday afternoon, we invite you to a guided tour of the Földi Clinic – the European Centre for Lymphology. Additionally, we will offer hands-on workshops focused on current topics, mostly bilingual.

Our main goal: to broaden your horizons beyond the familiar. We want to inspire you to critically question established concepts and discover new perspectives that will enrich your work.

We look forward to welcoming you personally to the beautiful Black Forest – the cradle of academic lymphology.

With warm regards
Yours

Dr. med.
Tobias Bertsch

Guenter Klose
